I believe that there was some confusion regarding the portable toilets due to a change in location for the lodging trailers which is now separate from the work trailers. It was seen as duplicative, I believe. I am completing another 213 and physically handing it to logistics as we speak. I am also working with Christine.

Subject: Resubmittal of 213RR for portable toilets and hand wash station at C Branch IC

Dear Colleagues

I understand that our 213 RR for portable toilets has been denied or delayed . If this is not true, I apologize and you can stop reading

We currently have an onsite staff of approximately 50 personnel

I was advised by IMAT LOGS to use the National Guard units on the other side of the mall

## NATIONAL GUARD RESOURCES ARE DEMOBING FROM THIS LOCATION AT THIS TIME

Please move this request up the priority list if at all possible. This is a safety issue.

If the logistical roadblock is related to vendor availability, please let us know that as well. If you need us to try and

get a vendor we can assist with that as well

This request does NOT pertain to facilities for living quarters. This will be a separate request

Your assistance is appreciated Thank you Chris
